

X-Press
**SUPER
CUSTOM**

Shape it **bigger.**

The solution to
deep-box bending...

is X-Press SuperCustom.

X-Press SUPER CUSTOM

Gasparini created the X-Press SuperCustom, a press brake with extended stroke and daylight.

With SuperCustom you can make even the biggest structures, with the highest speed and versatility.

Bend boxes up to 600-mm deep and more, with no special tools and with the utmost accuracy.

More
than
600
mm
